It is a laudable ambition to reach the top of the ladder of success. But many man who reaches the topmost finds his position a torment instead of a triumph. He has sacrifieed his health to success

palpitation of the

of these symptoms
point to weakness and loss of nutrition. Dr. Pierce's Golden Medical Discovery cures disand other organs of di-gestion and nutrition.

"For about two years I suffered from a very obstinate case of dyspepsia," writes R. E. Secord, Rsq., of its Eastern Ave., Toronto, Ontario. "I tried a great number of remedies without success. I finally lost faith in them all. I was so far gone that I could not bear any solid food in my stomach for a long time; folt melancholy and depressed. Could not sleep nor follow my eccupation. Some four months ago a friend recommended your 'Golden Medical Discovery.' After a week's treatment I had derived so much benefit that I continued the medicine. I have taken there bottles and am convinced it has in my case accomplished a permanent cure. I can conscientiously recommend it to the thousands of dyspepties throughout the land."

BROUGHT IN THE LODGE GOAT.-The trial of the suit of Samuel W. Mitchell against Sovereign Camp, Woodmen of the World, for \$25,000 for injuries received while "riding the goat" at his initiation, was begun at Columbia, S. C., on Wednesday. Mitchell told of the injuries received. This occurred in March of last year.

The production in court of the offend-ing "Billy" was the sign for merriment that had to be checked by the doorkeepers. The goat was mounted on wheels with a powerful spring mechan-ism operated by a bandle in the rear of the seat on which the man to be init ated set. The counsel for Mitchell tried to operate it but could not. Then the defendants vo unteered their services, and one occupied the goat. The goat "bucked" and Judge, lawyers and

spectators laughed heartily.

The Rev. J. L. Oats testified for the defence and said he had helped initiate Mitchell and had walked by his side, when the goat pitched him over his head. Attendants had caught Mitchell and he landed on his feet. Mitchell said he was buit, got angry and wanted to fight.

Just before being thrown Mitchell was laughing and told the goat to "get up," and it did so. Mr. Oats said he had ridden the goat and others testified to taking the same excercise.

Mitchell used strong language to-ward Dr. Ward, who testified that be had been injured by an attack of fever. The judge admonished him. There was then a good deal of medical teeti-mony introduced relative to the con-dition of Mitchell and the effect the goat

A SEA YARN -Joseph Van Fleet and George Chicester, oyster men of Port Richmond, Staten Island, who rowed in a skiff Wednesday night to Perth Amboy, declare that as they passed the Baltimore and Onio draw-oridge near Elizabethport they saw a tug having in tow a brig with salls set out flapping and showing up plainly in the bright moonlight.

The crew of the tug was gazing back and when the brig drew up the men in the skiff eay they beheld a man aboard of her, evidently the captain, aiming a rifle up in the rigging and swearing. In the rigging were a negro and a saller looked in each other's sailor locked in each other's embrace and slashing at one another with knives. The bare cheets of the two men showed many wounds. Suddenly the captain let out a roar that evident-ly startled the combatants, for the white man with a yell sprang from the yardarm into the water. The negro followed and when he struck the water swam after the white man with hi

A boat was lowered away and the white man was pulled aboard half dead from loss of blood. The negro swam up but was beaten off. Later he was taken aboard the sbip, and the tug and brig drew away while the moon went behind a cloud and shivered. The brig did not stop at Elizabethport and it is not known whether the men died of their wounds, or what the fight was

BEATS THE MERGENTHALER,-Meesre Schuckett & Co., German electrical manufacturers in Berlin, are shipping to the United States for exhibition a typesetting machine called the "electro-typograph," which is declared to be as much superior to the Mergenthaler as that machine is to hand typesetting. The machine is the invention of a Hungarian engineer named Rozar. From a perforated paper ribbon pro-duced on an ordinary typewriter the electrotypograph automatically casts and sets single type. The ribbon is capable of transmission by telegraph. It is said that the superiority of the new machine over the linotype include ability to correct individual letters without recasting whole lines, the ca-pacity to create the ribbon on an ordiparty typewriter, proofs before casting, setting and justifying the lines by touching a key. The speed of the ma-chine is about equal to that of the
